Sri G. Simhadri, B.A.,
Project Executive Officer,
Mangalore

To

The Director of Community Projects
and Ex-Officio Secretary to Govt.,
Fort St.George, Madras 9.

....

Sir,

Sub: Community Projects - South Kanara - Communications - Block I - Yekkar Niddodi Road - Estimate - Sanction-Requested.

****

I submit herewith an estimate in duplicate with site plan etc. for the formation of Yekkar Niddodi Road with seven culverts. The particulars required are furnished below:

1.	Block No.	....	I.
2.	Name of work:		Yekkar Niddodi Road (5 miles, 3 furlongs) with seven culverts.
3.	Whether the work was approved by the Firka and the Project Advisory Committees and whether it is included in the programme for 1952-1953.		Yes.
4.	Cost of work.	....	Rs. 12,900/- (Earth work Rs. 9,600/- (Culverts Rs. 3,300/-
5.	Villagers' contribution.		The villagers have promised free labour towards earth work costing Rs. 7,600/- The Panchayat Board, Yekkar has promised a contribution of Rs. 2,000/- towards earth work.
6.	Expenditure to be borne by the Community Project.	...	Rs. 3,300/-

7. Remarks: The proposal is to construct a road 5 miles, 3 furlongs in length with seven culverts from Yekkar to Noddodi. The proposed road will connect the interior parts of Badagayekkar and Tenkayekkar villages as also some of the border villages of Mangalore and Karkal Taluks such as Muchur, Kompadavu, Yedapadavu, Niddodi and Kallamundkur. The road will also connect the two main roads viz., Mangalore Mudabidri road and Bajpe Mulky Road. It will also be useful to the children attending the Elementary School at Badagayekkar to which there is no road at present. The total cost of the work is Rs. 12,900/- out of which Rs. 9,600/- is for the earth work and Rs. 3,300/- for the seven culverts. The villagers have promised contribution in the shape of free labour in the formation of the road at a cost of Rs. 7,600/- The Panchayat Board, Yekkar has also promised a contribution of Rs. 2,000/- towards the earth work. This means that the entire earth work will be done by the villagers at a cost of Rs. 9,600/- and the Community Project will have to bear an expenditure of Rs. 3,300/- only towards the construction of seven culverts. I recommend that the estimate may be sanctioned for Rs. 3,300/-

PROJECT EXECUTIVE OFFICER.

CB. o/c of est. taken Sr. 8.5.53
entered in C.B. as item 57

Note— Please see the letter from the PEO Mangalore at p1 cf. requesting Sanction to 7 culverts costing Rs 3300 ~~costing~~ on the roads to be formed by the villagers, from Yekkar to Niddodi.

The estimate has been scrutinized.

The proposal is to form a katcha road from Yekkar to Niddodi, a distance of 5 m. and 3 flgs., by widening the existing Cart track, raising it where necessary and cutting away at deep ascents and forming side drains. The Soil varies from Gravel & otta ordinary Soils to laterite and Soft rock There are 7 Cross drainages and these will be negotiated by 1 foot diameter pipe culverts using 'Hume' pipes

The estimates for these 7 culverts are divided into 3 Categories, depending on the depth of cutting or height of embankment at the respective sites, the head walls varying in depth accordingly. There are 2 culverts of 1 type, 4 of the 2nd and 1 of the third, costing Rs 250 Rs 240 and Rs 320, respectively for each type. Thus in all the Cost of the 7 culverts will be 2 x 250, (500) 4 x 240 (960) & 320 or Rs 1780. An as-here provision of Rs 520 and Rs 100 for meeting the cost of any paved ramps or dips at other minor Stream Crossings and towards Contingencies and petty Supervision charges, respectively make up the Cost of culverts to Rs 2400 (Rs 1780 + 520 + 100) This amount is required to be sanctioned

The cost of these culverts was estimated by the P.E.O at Rs 3300 which amount was asked to be sanctioned This was made up of.

2 nos 1st type culverts @ Rs. 286 :	Rs 572.
4 .. 2nd type culverts @ Rs 313 :	Rs 1252
1 no. 3rd type culvert @ Rs 367 :	Rs. 367.
Lump sum for paved dips	Rs. 500
Contingencies & Petty Supervision at 5% of estimate including for the Rs 960 for the roads	Rs 609
	Rs 3300.

The actual cost of culverts has been reduced by 1) adopting a lower rate for hume pipes, based on the Rampur Pipe Company's price list 2) Adopting current schedule of rates for 1953-54 as revised. The Contingencies and petty Supervision charges are limited to about 5% of Cost of works on the Culverts, since the C.P. will Carry out these works only.

The sanctioned budget estimate provides for 100 miles of Kaccha roads and 50 culverts for the 1st year for this area. p 20 (T)

The estimate may therefore be sanctioned.

The draft orders over leaf may please be approved & the estimate also signed

(4) Government Memo.No.5409.Agri (Community Project Audit)/54-3 dated 18-3-1954.
(5) From the Inspector of Municipal Councils and Local Boards, L.Dis.18701/54 dated 30-6-1954.

--

In the G.O. cited (1) above, sanction was accorded to an expenditure not exceeding Rs.2,400/- for constructing 7 culverts on the road from Yekkar to Niddodi in Mangalore and Karkal Taluks. The Katcha road of 5 miles and 3 furlongs costing Rs.9,600/- to be formed by the Villagers was the public contributions towards the work. The President, Panchayath Board, Yekkar had promised a contribution of Rs.2,000/- towards the formation of the road. But the Inspector of Local Boards and Municipal Councils in his proceedings, however, did not accord sanction for contributing the amount from the Panchayath funds. It is now reported by the Assistant Project Officer, Mangalore that any amount of persuasion to the villagers and the President, Panchayath Board, Yekkar did not yield any results as they are not willing to form the road. In fact, they seem to be not in a position to pursue this formidable item of work, as they have had to contribute much for another similar road in the same area and ~~loss~~ for 2 wells.

2. As the road in question is not going to be formed, there is no need to put up culverts now. In the circumstances, I recommend that sanction accorded in the G.O. cited may kindly be withdrawn.
